**Marts offers several ways to save.  
See our programs below to find the  
plan that best fits your needs.**

### TERRIFIC 10 DISCOUNT

Save 10¢ a gallon on heating oil - without even touching your thermostat! With home heating oil prices on higher than ever before, it makes sense to stretch every energy dollar as far as you can. The "Terrific 10" discount program allows you to save an extra 10 cents per gallon on your heating oil bill. To receive this discount your payment must be directly debited from your checking account or credit card at the time of delivery.

**To sign up for the Marts Direct Debit  
Payment option, call (866) 935-0022**

### 12-MONTH BUDGET PLAN

Based on your consumption history and credit approval, we'll project what the total dollar amount of your purchases will most likely be over the next twelve months - including any applicable fees for Price Protection - and then add or subtract your beginning account balance. We will divide this number by twelve to determine what your monthly budget payment will be. Periodically, we'll review your account to make sure everything's in sync, so there are no big surprises at the end of the twelve-month cycle.

### PRICE PROTECTION PLAN

Our Price Protection Plan allows you to lock in the price you pay for oil so that you don't have to worry about rising oil prices.

Your price for oil will never rise above the cap. If the daily variable rate for oil is less than your Price Protection limit, you will be charged the lower price. The program is designed to protect you against sudden or unexpected price increases. Lock in our Price Protection from now through May 2009. For customers who choose this protection, your account will be charged our participation fee.

Unpredictable fluctuations in energy costs are a dreadful fact of economics. At Marts, we give you the opportunity to minimize the impact of rising oil costs through our Price Protection Program.

**Sign up for the Price Protection  
Program today: 1-866-935-2360**

† Automatic delivery is subject to credit approval and a delivery commitment until May 31, 2009. Automatic delivery service self-renews annually each June 1, unless you cancel during two-week May opt-out period. Enrolled automatic delivery accounts are subject to a \$199 early termination fee.
